HARDWARE COMPONENTS

Programmers

Product code	Description	Price
1-001-0002	XPROG-m Rev. E programmer	150 €
1-001-0003	XPROG-m Rev. E programmer with all authorizations and adapters (full kit)	2000 €

XPROG-m programming adapters

Product code	Description	Price
1-002-0001	TMS370 PLCC28 programming adapter	20 €
1-002-0002	TMS370 PLCC44 programming adapter	20 €
1-002-0003	TMS370 PLCC68 programming adapter	20 €
1-002-0004	Motorola HC05B/X PLCC52 programming adapter	20 €
1-002-0005	Motorola HC05B/X QFP64 programming adapter	20 €
1-002-0006	ST M35080 in-circuit programming adapter	20 €
1-002-0008	TMS374 family in-circuit programming adapter	20 €
1-002-0009	MC68HC05V12 programming adapter	20 €
1-002-0010	TMS374 on-board programming adapter	20 €
1-002-0011	HC11EA9/E9 programming adapter	20 €
1-002-0017	HC(S)12 BDM / ARM Micronas in-circuit programming adapter	100 €

NOTE: 2-002-0018 or 2-002-0021 software authorization is required

SOFTWARE COMPONENTS

Programmer software

Product code	Description	Price
2-001-0001	Device Programmer Desktop V5.0	-

Software authorizations

Product code	Description	Price
2-002-0001	Motorola HC05 family authorization (allows to read/write EEPROM)	50 €
2-002-0002	Motorola HC08 family authorization (allows to read/write EEPROM)	50 €
2-002-0003	Motorola HC11 family authorization (allows to read/write EEPROM)	50 €
2-002-0004	Motorola HC(S)12 family authorization (allows to read/write EEPROM and flash memory)	50 €
2-002-0005	Texas Instruments TMS370/TMS374 family authorization (allows to read/write EEPROM)	100 €
2-002-0006	Motorola HC05B/X family bypass security authorization (allows to read/write secured EEPROM and flash memory)	50 €
	NOTE: 2-002-0001 software authorization is required to use this feature	
2-002-0007	ST M35080 read/write/erase authorization	50 €
2-002-0008	BMW EWS3 authorization	50 €
2-002-0009	ATmega family authorization (allows to read/write EEPROM and flash memory)	50 €
2-002-0010	MB ZGS001 authorization	50 €
2-002-0011	Motorola HC11EA9/E9 bypass security authorization (allows to bypass security bit and read EEPROM and RAM memory)	50 €
	NOTE: 2-002-0003 software authorization is required to use this feature	
2-002-0012	National CR16 authorization (allows to read/write EEPROM memory)	50 €
2-002-0014	ST7, ST10 family authorization (allows to read/write internal flash)	50 €
2-002-0015	MPC5xx authorization (depending on device program automatically detects MPC5xx, M95xxx device type, flash, external flash and configuration memory size)	500 €
2-002-0018	Motorola HC12, HC912, MC9S12, MC9S12X bypass security authorization (allows to read/write secured EEPROM and flash memory)	700 €
	NOTE: 1-002-0017 adapter is required to use this feature. 2-002-0004 software authorization is not required	
2-002-0020	ARM (Micronas, ...) Family authorization (allows to read/write internal flash and external serial EEPROM)	25 €
2-002-0021	ARM (Micronas, ...) Family bypass security authorization (allows to read/write secured and non-secured internal flash and external serial EEPROM, view/change mileage, chassis number (VIN), serial number and PIN code).	50 €
	NOTE: 1-002-0017 adapter is required to use this feature. 2-002-0020 software authorization is not required	

DOCUMENTATION

Product code	Description	Price
3-001-0001	XPROG-m programmer user manual	-
3-001-0002	TMS374 family in-circuit programming user manual	-

Note: All prices shown exclude delivery and VAT

ATTENTION:

A minimum purchase total of 400,00 € (without tax & shipping) is required when buying new XPROG-m programmer set.

Payments accepted:

BANK TRANSFER
